SPECIAL ISSUE

CONTENTS

The Algebra of Fibonacci Representations ... Robert Silber and Ralph Gellar 289
Set Partitions .................................................. L. Carlitz 327
Primitive Periods of Generalized
Fibonacci Sequences ................. Claudia Smith and Verner E. Hoggatt, Jr. 343
On the Prime Factors of $\binom{n}{k}$ ..................... P. Erdős and R. L. Graham 348
Mixed Nearest Neighbor Degeneracy for Particles
on a One-Dimensional Lattice Space ............... R. B. McQuistan 353
A Formula for Fibonacci Numbers From a
New Approach to Generalized Fibonacci Numbers ..... Leon Bernstein 358
Divisibility Properties of Recurrent Sequences .......... Clark Kimberling 369
The Fibonacci Sequence Encountered
in Nerve Physiology ............................... Kurt Fischer 377
A Fibonacci Property of Wythoff Pairs ....................... Robert Silber 380

NOVEMBER 1976
