

PURPOSE AND EDITORIAL POLICY

As the primary publication of The Fibonacci Association, *THE FIBONACCI QUARTERLY* provides a focus for worldwide interest in the Fibonacci number sequence and related areas of mathematics. Papers have included topics on linear and nonlinear recurrence sequences, Diophantine equations, binomial coefficients, and continued fractions. New results, research proposals, challenging problems, and new proofs of known relationships are encouraged. The *Quarterly* seeks intelligible, well-motivated, university-level articles.

SUBMITTING AN ARTICLE

Manuscripts should be submitted electronically to the editor, Curtis Cooper, at the email address: **fibonacciquarterly@gmail.com**. Submissions in $\text{\LaTeX}$ are preferred, and a final submission, following preliminary acceptance, *must* be in $\text{\LaTeX}$ using a template file that can be downloaded from

<http://cs.ucmo.edu/~cnc8851/fibonacci/template.html>

Illustrations should be submitted as separate EPS files.
