INTEGRAL TRIANGLES AND CIRCLES

Triangles arising in itacs are also Heronian; that is, have integral areas. The area of a triangle is given by

\[ A = \frac{xyz}{2d}, \]

where \( d \) is the diameter of the circumcircle, and \( x, y, \) and \( z \) are the sides. Substituting from Table 1, we obtain expressions such as

\[ A = \frac{ar(as + br)}{2}. \]

For Pythagorean triplets \( a, b, c \) and \( r, s, t \), \( ab \) and \( rs \) are both even, so \( A \) is always an integer.

Announcement

FOURTH INTERNATIONAL CONFERENCE ON FIBONACCI NUMBERS AND THEIR APPLICATIONS

Monday through Friday, July 30-August 3, 1990

Department of Mathematics and Computer Science

Wake Forest University

Winston-Salem, North Carolina 27109

International Committee
Horadam, A.F. (Australia), Co-Chairman
Philippou, A.N. (Cyprus), Co-Chairman
Ando, S. (Japan)
Bergum, G. (U.S.A.)
Johnson, M. (U.S.A.)
Kiss, P. (Hungary)
Filipponi, Piero (Italy)
Campbell, Colin (Scotland)
Turner, John C. (New Zealand)

Local Committee
Fred T. Howard, Co-Chairman
Marcellus E. Waddill, Co-Chairman
Elmer K. Hayashi
Theresa Vaughan
Deborah Harrell

CALL FOR PAPERS

The FOURTH INTERNATIONAL CONFERENCE ON FIBONACCI NUMBERS AND THEIR APPLICATIONS will take place at Wake Forest University, Winston-Salem, N.C., from July 30 to August 3, 1990. This Conference is sponsored jointly by the Fibonacci Association and Wake Forest University.

Papers on all branches of mathematics and science related to the Fibonacci numbers as well as recurrences and their generalizations are welcome. Abstracts are to be submitted by March 15, 1990, while manuscripts are due by May 1, 1990. Abstracts and manuscripts should be sent in duplicate following the guidelines for submission of articles found on the inside front cover of any recent issue of The Fibonacci Quarterly to:

Professor Gerald E. Bergum
The Fibonacci Quarterly
Department of Computer Science
South Dakota State University
P.O. Box 2201
Brookings, South Dakota 57007-0194
