**NOTICE OF NOVEMBER 1992 VOLUME INDEX CORRECTION**

- ◆ K. Atanassov's name was inadvertently omitted from the list of authors.
- ◆ K. Atanassov's coauthored article "Recurrent Formulas of the Generalized Fibonacci and Tribonacci Sequences" was incorrectly credited to Richard André-Jeannin.

# Applications of Fibonacci Numbers

Volume 4

*New Publication*

**Proceedings of 'The Fourth International Conference on Fibonacci Numbers and Their Applications, Wake Forest University, July 30-August 3, 1990'**

edited by **G.E. Bergum, A.N. Philippou and A.F. Horadam**

This volume contains a selection of papers presented at the Fourth International Conference on Fibonacci Numbers and Their Applications. The topics covered include number patterns, linear recurrences and the application of the Fibonacci Numbers to probability, statistics, differential equations, cryptography, computer science and elementary number theory. Many of the papers included contain suggestions for other avenues of research.

For those interested in applications of number theory, statistics and probability, and numerical analysis in science and engineering.

1991, 314 pp. ISBN 0—7923—1309—7  
Hardbound Dfl. 180.00/£61.00/US \$99.00

A.M.S. members are eligible for a 25% discount on this volume providing they order directly from the publisher. However, the bill must be prepaid by credit card, registered money order or check. A letter must also be enclosed saying "I am a member of the American Mathematical Society and am ordering the book for personal use."
